- Peace and Reconciliation Studies Program
- Department of Plants, Soils and Environmental Sciences

**9th Annual Conference on Slow Food**

**Increased understanding of the value of local, in-season and organic food that boosts Maine’s economy while protecting the environment.**

**Keynote Speaker - Roger Doiron**
Roger Doiron is founder of Kitchen Gardeners International, a Maine-based nonprofit network of over 24,000 gardeners from 100 countries. His work has been featured in many places including the New York Times, the Washington Post, Organic Gardening magazine, Saveur, and the Christian Science Monitor. He is best known for having led the successful campaign for a kitchen garden at the White House, a feat that earned him Hearst Media’s “Heart of Green” award and recognition by the editors of East Company magazine as one of the “10 most inspiring people in sustainable food.”

**Conference Speakers**

**John Jemison**, PhD, is Extension Professor of Soil and Water Quality and cooperating professor at the Department of Plant, Soil, and Environmental Sciences. He develops and delivers educational programs designed to encourage growers and homeowners to implement practices to protect surface and ground water supplies. With projects like the Orono Community Garden, he teaches people to grow food, better understand civic agriculture and the benefits of local food systems. His research program focuses on nutrient and weed management strategies to improve productivity, reduce risk to water quality and boost local food production. He teaches courses on food systems and the fate of pesticides in the environment. He chairs the Maine Board of Pesticides Control.

**Dorothy Klimis-Zacas**, PhD, is Professor of Clinical Nutrition at the University of Maine and cooperating professor of Nutrition and Dietetics at Harokopio University, Athens, Greece and the University of Milan, Italy. She is Fulbright Senior Fellow and Vice President of the Fulbright Chapter, Maine and has been teaching graduate and undergraduate courses in the areas of Nutritional Biochemistry and Clinical Nutrition for 25 years. Her research focuses on the areas of functional foods (Maine wild blueberries) and trace minerals and their role on heart health and the metabolic syndrome. Her international work as a Cariplo Fellow at the University of Milan, Italy includes the study of food bioactives on bioavailability, gastrointestional health, endothelial function and inflammation. She is the author of numerous research articles and the editor of Manganese in Health and Disease, Nutritional Concerns for Women and editor-in-chief of Annual Editions in Nutrition.

**Fabio Parascioli**, PhD, is Associate Professor and Coordinator of Food Studies at The New School in New York City and cooperating professor at the University of Gastronomic Sciences, Pollenza, Italy. His work explores the intersections among food, media, and politics. Among his recent publications: Food Culture in Italy (2004), The Introduction to Culinary Cultures in Europe (The Council of Europe, 2005) and Bite me! Food in Popular Culture (2008). He is general editor with Peter Schollers of a six-volume Cultural History of Food (2012).

**Congresswoman Chellie Pingree** moved to Maine in 1970s, and after graduating from the College of the Atlantic started a small farm on the island of North Haven. A knitting business she started in the early 80s grew to year-round employment producing knitting kits and books sold in hundreds of stores across the country. She was elected to the Maine Senate in 1992 and after serving four terms, went on to become the national President of Common Cause. In 2008, Chellie Pingree was elected to Congress to serve Maine’s 1st District, the first woman from this District to ever be elected to Congress. She has traveled to Iraq, Afghanistan and Guantanamo Bay as part of the Armed Services Committee and as a member of the Agriculture Committee she is becoming a national voice for local, sustainable farming.

**One of Maine’s Public Universities**
